

Chairman's report 3/3/16

1201. Tim Booth has done some work on the shared resources. You can see the results at

<http://www.scoa-orienteing.org.uk/shared-resources>

"I've put the pictures into the main page for each item, since that makes the main table work much better when used from smart phones - so many more people are accessing things via smartphones these days.

If you approve, I'll make it so that it can be updated by other users - you'll have to let me know who that is from each club. As I said, the main people will be able to update any of the pages. Let me know if you want to make any changes or additions." ACTION- Who should be able to update this?

I have spoken briefly to the current SN chair: When a vote was taken a short while ago, it was to remain in SEOA: there seems little interest at present in SN registering as a SCOA club, but I believe the club will support SCOA in putting on the JK2019. CLOSED
