

## SCOA Technical Officer Report to Committee 2 June 2016

### Officials

Since the last SCOA meeting only TVOC have replied to me regarding the licencing of Organisers. I have advised BOF of the changes requested and they have updated the BOF membership information.

One change has been made to a BKO member at their own request.

Geoff Geere of TVOC has resigned as a Controller and his information has been amended accordingly on my and the BOF records.

A form has been created for approval of officials for Level B events. I thought I had already circulated this but it has been included with these meeting documents.

Just to clarify the current system note that Organisers are awarded Licences by British Orienteering (in the same way as Controllers and Coaches) Planners are not.

### Training

No Event Safety training has taken place as far as I am aware since the last meeting.
